

# OrthoDome® Presentation Checklist

## FACULTY

If you need to change your presenting author, please contact Heather (contact info below). The presenting author will receive complimentary registration to the meeting and be listed as the speaker in the program and on the app.

## SLIDES

(Optional) If you would like to start your presentation with introductory slides, we recommend submitting a separate PowerPoint file, no more than 2-3 slides with a title and any introductory information. Please **DO NOT** embed your video into the PowerPoint. 4K and high-resolution video is not supported by PowerPoint.

## VIDEO

### Video Specifications:

Container: MP4

Codec: H.265

Resolution (HD): 1920x1080

Resolution (UHD): 3840x2160

Frame Rate: 59.94 FPS

Bit Rate (HD): Target 20 Mbps

Bit Rate (UHD): Target 40 Mbps

### Please ensure your video is:

- **A maximum of 32 GB**
- 7-12 minutes in length (you will have 15 minutes to present and hold Q&A)
- **NOT** a recorded PowerPoint presentation (PPT does not support HD)
- If you would like your video to be posted on the Orthopaedic Video Theater (OVT), your video must include an audio voiceover. The video will be played **muted** at OrthoDome to allow for live narration but will be posted on the website with audio.

## UPLOAD

Upload your PowerPoint and Video files no later than **February 10**. **Files may not be uploaded on-site!**

- Please include a shortened title and presenter name in the filename:
  - Sports Knee Injury\_Faculty\_PPT
  - Sports Knee Injury\_Faculty\_Video
